Experiment: Zero-shot, One-shot, and Few-shot Prompting

1. Product Description for a Smart Fitness Watch

Aim:

To design and compare zero-shot, one-shot, and few-shot prompts for generating a product description for a Smart Fitness Watch.

Procedure:

1. Open an AI tool such as ChatGPT.
2. Enter a zero-shot prompt without examples.
3. Enter a one-shot prompt with one example.
4. Enter a few-shot prompt with two examples.
5. Compare the generated outputs.

Prompt:

Zero-shot:

Write a product description for a Smart Fitness Watch. Include its features, benefits, and design.

One-shot:

Example:
Product: Wireless Earbuds
Description: Enjoy clear sound, comfortable design, and long battery life.

Now write a similar product description for a Smart Fitness Watch.

Few-shot:

Example 1:
Product: Smart Bottle
Description: Stay hydrated with reminders and water-intake tracking.

Example 2:
Product: Fitness Shoes
Description: Enjoy comfort and support during workouts.

Now write a product description for a Smart Fitness Watch, including its features and benefits.

Output:

- Zero-shot: The Smart Fitness Watch tracks heart rate, steps, calories, and sleep. Its stylish design, smart notifications, and long battery life make it useful for daily fitness activities.
- One-shot: The Smart Fitness Watch provides health tracking, step counting, sleep monitoring, and smart notifications in a comfortable design.
- Few-shot: Improve your fitness with a Smart Fitness Watch that monitors heart rate, steps, calories, and sleep. Its comfortable design and smart notifications help users achieve their daily fitness goals.

Result: Zero-shot generated a general description, one-shot followed the given example, and few-shot produced a more structured description.
